## OBJECTIVE

A highly motivated and detail-oriented software developer with **3.6 years of hands-on experience** in **React.js , JavaScript, Java, SpringBoot, SQL, Node js, Express and Android** . Proven ability to design and develop scalable, high-performance web applications with a focus on clean code and user experience. Eager to contribute to cutting-edge projects in a dynamic, team-driven environment, while continuously expanding my skillset and embracing new technologies.

---

## SKILLS

- React js
- SpringBoot
- Android Developer
- JavaScript
- TypeScript
- Express
- Java
- Node js
- SQL , MongoDB

---

## EXPERIENCE

### Software Developer | Indea Design System Pvt. Ltd.

Jan 2022 – June 2025

In my current role at IDS my primary focus involves working with Java Server Faces, Java, JavaScript, TypeScript, and React.js, contributing to the development and enhancement of software solutions.

### Projects

#### Repfabric CRM - Sales Data Management Platform for Multi-Line Sales Teams

Repfabric is an AI-driven CRM system that accelerates your sales process—from processing customer emails to importing sales and commission data from your manufacturers. Utilize AI to manage your data and gain customer insights so sales teams spend less time sifting through information and more time doing what they do best—selling.

#### Coach Web Application

**Technologies:** React.js, Node.js, Material-UI

Architected and initiated a coach web application with a responsive and modern UI using Material-UI. Completed as part of training at *India Design System Pvt Ltd*, the project strengthened my proficiency in React and Node.js, earned me hands-on experience in REST API integration, and upgraded my understanding of full-stack web application architecture.

#### Flight Booking Web App

**Technologies:** TypeScript, React.js, Node.js, Ant Design

I Constructed a full-fledged flight booking system with features like date selection, price filtering, and seat booking logic. Leveraged TypeScript for type safety and Ant Design for consistent UI. This project advanced my front-end and back-end synchronization skills and acquired knowledge in dynamic data rendering.

---

### **Expense Tracker Web App**

**Technologies:** TypeScript, React.js, Node.js, Ant Design

established an interactive expense tracking system that enables users to add, delete, and categorize transactions. Integrated charts for visual analytics and Redux for state management. This application helped me refine my state handling strategies and improved my ability to implement scalable component architectures.

### **E-commerce Product Catalog**

**Technologies:** React.js, TypeScript, Node.js, Express, phpMyAdmin

Enforced and customized an E-commerce Product Catalog platform with essential features like product filtering, pagination, cart integration, and responsive layouts. Focused on usability and accessibility while managing product schema design and backend CRUD operations. This project upgraded my database design proficiency and expanded my experience in building customer-centric applications.

### **Junior Software Developer | Roman Technologies Bangalore**

6 months junior software developer training at Rooman Technologies Bangalore.

## **Projects**

### **Bgoz Android Application**

**Technologies:** Android Studio, Java

Independently engineered the Bgoz Android mobile app, focusing on intuitive UI and efficient functionality. Designed and executed core features to ensure optimal user engagement. Through this project, I acquired in-depth expertise in Android application lifecycle, fine-tuned my Java proficiency, and successfully managed the end-to-end development process.

### **Chat Android Application**

**Technologies:** Android Studio, Java, Firebase

**Developed** a fully functional real-time Chat Android application using Android Studio and Java. Integrated features including user authentication, message notifications, and persistent chat history using Firebase. Designed a clean, user-friendly interface adhering to mobile UX best practices. This project deepened my Java proficiency, enhanced my mobile development expertise, and showcased my ability to independently deliver end-to-end mobile solutions.

---

## **EDUCATION**

**BE (E & C) | Visvesvaraya Technological University (VTU)**

**2015 – 2019**

During my Bachelor's in Electronics and Communication Engineering, I immersed myself in subjects such as Python, C and C++ gaining proficiency in versatile programming languages to augment my technical skill set.

---

## **CERTIFICATE**

Basics of java programming language, IndiaSkilled PRO JAVA, CORE JAVA, Hands On React JS From Beginner to Expert
